Josh,

We are going to go off of the proforma that Ronye sent you this morning. We aren't going to have a watermarked OA until we get to substantial completion because we are going to re-measure the space and have to change the OA anyway.

Signing the proforma OA will allow me to get the certificate of funding I need to execute the OA. Sooner you get that over to me, sooner I can move it forward.

Thanks,

Marcus
